2009 |
| 1:45 – 2:00 | January 2009 Meeting: Case
Study Theme? |
| 2:00 – 2:45 | Goals, Topic Prioritization |
| 2:45 – 3:00 | Recap of Action Items, Meeting
Summary |
| 3:00 – 3:15 | BREAK |

NARPM 2008

- GW/SW Panel “Sponsored”
- Capture Zone Analysis “Sponsored”
- Well Performance Problems “Sponsored”
- Non-Detect Statistics “Sponsored” (not offered)
- Five Year Review
- Nanotechnology
- MNA and In-Situ Bioremediation
- DNAPL Source Zone Treatment
- Multi-Increment Sampling
- Green Remediation
- Remedy Rescue

NARPM 2009

- Training topic for GWF
- Training topic(s) for NARPM

January 2009 USGS-TSP Meeting

- The general topic areas to be discussed in the USGS Point Source Mon-Tues meeting (Jan 26-27) are:
 - * Contamination in Fractured Rock Aquifers (NAWC)
 - * Petroleum-related contamination (Bemidji)
 - * Wastewater effluent (Cape Cod)
 - * Landfills (Norman)
 - * Mixed waste Disposal (Amargosa Desert Research Site)

The presentations will not be limited to only research at the indicated by the geographic location, but will encompass other related research. USGS is working on flushing out these topics, and the title of the topics might change.

- GWF business all day Wednesday and Thursday afternoon
- Joint USGS-GWF working research & application planning session Thursday morning

July 2008 Action Item Summary

(details in Post Meeting Work Group/Action Item Status Report)

- Revise Ground-Water Assessments for **Five-Year Reviews document** for review by GWF, HQ and Risk Assessors. Review revised document. Decide if case studies will be included, discuss during Sept conference call.
- Organize **case study presentations** for the next TSP meeting (January 2009)
- Finalize recommendations on which guidance documents to post to **website**. Develop recommendations for additional items to be posted to website. Continue to advocate for **Quickplace** usage.

July 2008 Action Item Summary

(details in Post Meeting Work Group/Action Item Status Report)

- Review and submit comments by end of August on Beta version of **Navy's Screening Tool for Selection of DNAPL Remediation Technology**
- Provide comments on Revised **ASTM D6771** Standard Practice for Low-Flow Purging and Sampling of Wells and Devices used for Ground-Water Quality Investigations by July 11. Follow up on the document
- Finish providing input to Matt Charsky for a comprehensive list of **TI waiver** summaries. Review and comment in late summer/early fall on the new draft TI Guidance fact sheet.
- Dave Bartenfelder to coordinate with Post Construction Branch for the **Measures of Cleanup Progress** for Pump & Treat Remedies project. Work to be restarted in 2009. Plans will be discussed at January 2009 meeting

July 2008 Action Item Summary

(details in Post Meeting Work Group/Action Item Status Report)

- Resolve response to comment process on ESTCP draft report: "**Frequently Asked Questions Regarding the Management of Chlorinated Solvents in Soils and Groundwater**" To be discussed on August GWF call
- **Close-Out” of Sites with Ground-Water Issues:** Get 2nd draft of flowchart to team and 1st draft of guide outline and text to team for review in fall 08
- Prepare directions for revising **Site Characterization for Monitored Natural Attenuation** to ORD by end of summer
- Contact potential peer reviewers and confirm willingness to review, transmit names of willing reviewers to Ada for **Ground-Water Uncertainty Issue Paper.**

July 2008 Action Item Summary

(details in Post Meeting Work Group/Action Item Status Report)

- Contact potential peer reviewers and confirm willingness to review, transmit names of willing reviewers to Ada for **Measurement of Field Issue paper** determine if paper requires updating.
- Track progress of **GW/SW Eco-Update/Issue Paper**. Determine if “fact sheet” is different document.
- Track progress of **Unified Statistical Guidance**
- Co-chairs to check and see if disclaimer re GW/SW was added to FFF Ordnance/Explosives Issue Paper
- Plan **NARPM training** for 2009

July 2008 Action Item Summary

- Determine best way for GWF to participate in Review of **Land Research Program** for OSWER. Discuss on conference call in August
- Workgroup chairs submit **Workgroup Summary Reports** and post on Quickplace, members submit **Action Item Reports**, Co-chairs compile all reports for next meeting
- Co-chairs finalize and distribute Post-Meeting **Work Group/Action Item Status Report**
- Kevin Willis to send EMS partial draft of **GWF flyer**. EMS prepare full draft. GWF review draft
- Pilot test 30 minute **case study as part of GWF call** in early fall.

Potential New Actions

- Task John Wilson to develop Issue Paper re analysis of MNA monitoring data
- Develop issue paper regarding use of stable isotopes for evaluating biodegradation
- Issue paper updating low-flow sampling rationale & criteria
